

## Intercollegiate Science Competition (SDAF 0013)

## Intercollegiate Science Competition (SDAF 0013)

Location	La Paz
Beneficiary Organization	<i>Socios Para el Desarrollo-La Paz</i>
Beneficiaries	1,527 children
SDAF Contribution	\$6,000
Status	COMPLETED
Completion Date	April 12, 2008

### Project Description:

The sciences are an important part of primary education, and science competitions help keep students interested in the subject and improve relations between communities and schools.

As part of the La Paz Health Fair, this project provided prizes for an intercollegiate science competition in which 1,527 school children participated. The awards included desktop computers, domestic travel, calculators, and memory cards for the winning teams.
